But which was burned out in the recent fire, repaired, remodeled and fitted up in the best manner with all the modern instruments and appliances for the performance of all kinds of operations in Dentistry. begs leave to inform his old friends and patrons and the public generally, that he is at home again in the same old place, where he would be happy to see them and wait upon them with anything wanted in the Dentistry line

He would call special attention to his new apparatus for generating Nitrous Oxide Gas Sprague's Patent—the only generator that makes it *pure* and *odorless* gas and the only one of the kind ever in this city

GOVERNOR PERHAM'S INAUGURAL.

The inaugural address of Governor Perham, which we published in full yesterday, is an able, well written document, and its straight-forward expression of the Governor's views on the topics of principal interest will be received with satisfaction throughout the State. With no attempt at ornament or flourish, the ideas are clearly and concisely expressed, the condition of public affairs discussed with a discretion evidencing an appreciative familiarity with the course of passing events; and the suggestions and recommendations for future improvement are presented distinctly and forcibly. The message as a whole is candid in statement, liberal in spirit and progressive in its policy, introducing the new Governor most favorably, and foreshadowing an earnest and useful administration.

The Governor's treatment of the temperance question confirms the views we have hitherto expressed, that, although zealously devoted to the cause and a firm advocate of prohibition, he recognizes the necessity of temperance in all things, and deems it wise to use the means we now possess, while sparing no effort to educate and elevate popular sentiment, rather than urge the adoption of measures calculated to provoke a hostility that would impair the present usefulness and threaten the continued existence of laws already in force.

The references to our undeveloped resources, the necessity of inciting our young men to engage more generally in agricultural pursuits, the encouragement of immigration, the employment of our natural natural advantages to create sources of employment and wealth that shall check the outflow of our working population, are all timely and judicious; and the recommendation that all reasonable facilities should be afforded for the extension of our railway system as the most powerful agent in stimulating and creating internal industry, will we trust, commend itself to the members and induce a liberal policy that will enable us to utilize the vast tracts of territory now lying uncultivated, by bringing them within the limits of speedy communication.

The various public institutions of the State receive attention, and their condition, wants and prospects are made the subject of thoughtful suggestions. The educational interests are especially commended to the care of the Legislature, with a recommendation that the present system which has shown good fruits should receive a still farther trial, our shipping interests are discussed at some length and a statement of the necessity for relief from the burdens that have so depressed them is coupled with an earnest hope that Congress will remove some of the disabilities. The question of biennial elections and sessions of the Legislature, and the change in the day of holding State elections to coincide with the day of voting for President, will prove a matter of discussion, and will develop strong preferences on either side. The fishing question is treated with the attention due to its importance and the hope expressed that an equitable adjustment may be reached.

The address touches upon various other topics, and contains much sensible advice that we cannot refer to at this time. It was listened to with close attention and approval by those to whom it was immediately spoken; and we are confident that it will be received with equal favor by the larger audience to whom it has been presented through the press.

THE SENATORIAL CAUCUS. The caucus of the Republican members of the Legislature for the nomination of a candidate for United States Senator, held in the Representatives Hall on Thursday evening, was called to order by Senator Lane of Cumberland, and on his motion Senator Foster of Kennebec was chosen to preside.

Mr. Cobb of Windham was chosen Secretary.

On motion of Mr. Johnson of Augusta, a Committee of Seven was appointed by the chair, to receive, sort and count votes for a candidate to be supported by the Republican members of the Legislature for United States Senator.

Mr. Carleton of Whitefield, moved that the caucus adjourn for one week, and supported his motion by remarks.

Remarks opposing the adoption of the motion, were made by Mr. Pike of Calais and Mr. Johnson of Augusta.

The question of adopting the motion being put, it was emphatically negatived.

The chair appointed as Committee to receive, sort and count votes—Messrs. Cleaves of Oxford, Lane of Cumberland, Johnson of Augusta, Robie of Gorham, Pike of Calais Whiting of Ellsworth, and Patten of Bath.

Mr. Robie of Gorham, recommended to the caucus, Gen. Joshua L. Chamberlain of Brunswick, as candidate for United States Senator, and in a lengthy speech advocated his nomination.

Hon. F. A. Pike of Calais, presented the name of Hon. Lot M. Morrill of Augusta.

The Clerk called the roll of the Republican members of the Legislature, and each member as his name was announced, deposited his vote in the ballot box held by a member of the Committee, in front of the Speaker's desk.

At a few minutes past nine o'clock, the Committee through its Chairman, Senator Cleaves, reported:

Whole number of votes,	140
Necessary for a choice,	71
Lot M. Morrill had	105
Joshua L. Chamberlain had	34
Israel Washburn, Jr., "	1

Thereupon the Chair declared Hon. Lot M. Morrill the Republican candidate for U. S. Senator.

On motion of Mr. Robie of Gorham, the nomination was made unanimous and the caucus adjourned.

A letter to the President written by his brother, Orville Grant, from Chicago, in June last, in which he brought serious charges against the official character of Gen. Bloomfield and others, having been published, he now states that he ascertained that he was in error and that he had subsequently written the President exonerating the parties and expressing regret that he had unintentionally prejudiced him against honorable men and good officers.

MISSOURI LEGISLATURE. The Missouri Legislature organized on Thursday. In the House, R. P. C. Wilson of Platte county, (Dem.) was elected Speaker over H. G. Mullins (Rep.) All the other officers were Democratic. In the Senate, Lewis Gottschalk of St. Louis, (Liberal) was elected Speaker pro tem, over Morrison, (Dem.) by a vote of 17 to 16. For Secretary, Hendricks, (Dem.) was elected over Moser, (Rep.) 18 to 24. Other officers were divided. Miss Belle Finlagson was elected engrossing clerk unanimously.

Secretary Belknap created quite an excitement on Wednesday by his communication to the Senate of the report of Gen. Holt, Judge Advocate General, made during the war, in which he recommended that Senator Sprague and others be tried by Court Martial, on the charge of furnishing military supplies to the rebels. The Senator's friends assert that he can by positive evidence show the untruth of the testimony upon which Judge Holt based his damaging report.

DR. SCHENCK ADVISES CONSUMPTIVES TO GO TO FLORIDA IN WINTER.

Having for the last thirty-five years devoted my whole time and attention to the study of lung diseases and consumption, I feel that I understand fully the course that ought to be pursued to restore a tolerably bad case of diseased lungs to healthy soundness. The first and most important step is, for the patient to avoid taking cold; and the best of all places on this continent for this purpose, in winter, is Florida, well down in the State, where the temperature is regular, and not subject to such variations as in more northern latitudes. Palatka is a point I can recommend. A good hotel is kept there by Peterman. Last winter I saw several persons there whose lungs had been badly diseased, but who, under the healing influence of the climate and my medicines, were getting well.

One hundred miles farther down the river is a point which I would prefer to Palatka, as the temperature is more even and the air dry and bracing. Mellonville and Enterprise are located there. I should give a decided preference to Mellonville; it is two miles from river or lake, and it seems almost impossible to take cold there. The tables in Florida might be better, and patients complain at times; but that is a good sign, as it indicates a return of appetite; and, when this is the case, they generally increase in flesh, and then the lungs must heal.

Jacksonville, Hibernia, Green Cove, and many other places in various parts of Florida can be safely recommended to consumptives in winter. My reasons for saying so are, that patients are less liable to take cold there than where there is a less even temperature; and it is not necessary to say, that, where a consumptive person exposes himself to frequent colds, he is certain to die shortly: therefore my advice is, go well down into the State, out of the reach of prevailing east winds and fogs. Jacksonville, or almost any other of the localities I have named, will benefit those who are troubled with a torpid liver, a disordered stomach, deranged bowels, sore throat, or cough; but, for those whose lungs are diseased, a more southern point is earnestly recommended.

For fifteen years prior to 1869, I was professionally in New York, Boston, Baltimore, and Philadelphia every week, where I saw and examined on an average five hundred patients a week. A practice so extensive, embracing every possible phase of lung disease, has enabled me to understand the disease fully; and hence my caution in regard to taking cold. A person may take vast quantities of "Schenck's Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills," and yet die if he does not avoid taking cold.

In Florida, nearly everybody is using Schenck's Mandrake Pills; for the climate is more likely to produce bilious habits than more northern latitudes. It is a well-established fact, that natives of Florida rarely die of consumption, especially those of the southern part. On the other hand, in New England, one-third at least of the population die of this terrible disease. In the Middle States, it does not prevail so largely; still there are many thousands of cases there. What a vast percentage of life would be saved if consumptives were as easily alarmed in regard to taking fresh colds as they are about scarlet fever, small-pox, &c! but they are not; they take what they term a little cold, which they are credulous enough to believe will wear off in a few days. They pay no attention to it; and hence it lays the foundation for another and another still, until the lungs are diseased beyond all hope of cure.

My advice to persons whose lungs are affected, even slightly, is to lay in a stock of Schenck's Pulmonic Syrup, Schenck's Seaweed Tonic, and Schenck's Mandrake Pills, and go to Florida. I recommend these particular medicines, because I am thoroughly acquainted with their action. I know, that, where they are used in strict accordance with my directions, they will do the work that is required. This accomplished, nature will do the rest. The physician who prescribes for cold, cough, or night sweats, and then advises the patient to walk or ride out every day, will be sure to have a corpse on his hands before long.

My plan is, to give my three medicines in accordance with the printed directions, except in some cases where a freer use of the Mandrake Pills is necessary. My object is, to give tone to the stomach,—to get up a good appetite. It is always a good sign, when a patient begins to grow hungry: I have hopes of such. With a relish for food and a gratification of that relish, comes good blood, and with it more flesh, which is closely followed by a healing of the lungs,—then the cough loosens and abates, the creeping chills and clammy night sweats no longer prostrate and annoy, and the patient gets well, provided he avoids taking cold.

Now, there are many consumptives who have not the means to go to Florida. The question may be asked, Is there no hope for such? Certainly there is. My advice to such is, and ever has been, to stay in a warm room during the winter, with a temperature of about seventy degrees, which should be kept regularly at that point by means of a thermometer. Let such a patient take his exercise within the limits of the room by walking up and down as much as his strength will permit, in order to keep up a healthy circulation of the blood. I have cured thousands by this system, and can do so again. Consumption is as easily cured as any other disease, if it is taken in time, and the proper kind of treatment is pursued. The fact stands undisputed on record, that Schenck's Pulmonic Syrup, Mandrake Pills, and Seaweed Tonic have cured very many of what seemed to be hopeless cases of consumption. Go where you will, you will be almost certain to find some poor consumptive who has been rescued from the very jaws of death by their use.

So far as the Mandrake Pills are concerned, everybody should keep a supply of them on hand. They act on the liver better than calomel, and leave none of its hurtful effects behind. In fact, they are excellent in all cases where a purgative medicine is required. If you have partaken too freely of fruit, and diarrhoea ensues, a dose of the Mandrakes will cure you. If you are subject to sick headache, take a dose of the Mandrakes, and they will relieve you in two hours. If you would obviate the effect of a change of water, or the too free indulgence in fruit, take one of the Mandrakes every night, and you may then drink water, and eat water melons, pears, apples, plums, peaches, or corn, without the risk of being made sick by them. They will protect those who live in damp situations against chills and fevers. Try them. They are perfectly harmless. They can do you only good.

I have abandoned my professional visits to Boston and New York, but continue to see patients at my office, No. 15 North Sixth Street, Philadelphia, every Saturday, from 9 A. M., to 3, P. M. Those who wish a thorough examination with the Respirometer will be charged five dollars. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not. But I desire it distinctly understood, that the value of my medicines depends entirely upon their being taken strictly according to directions.

In conclusion, I will say, that when persons take my medicines, and their systems are brought into a healthy condition thereby, they are not so liable to take cold; yet no one with diseased lungs can bear a sudden change of atmosphere without the liability of greater or less irritation of the bronchial tubes.

Full directions in all languages accompany my medicines, so explicit and clear, that any one can use them without consulting me, and can be bought from any druggist.

SIX PER CENT Gold Bonds,

PORTLAND AND OGDENSBURG RAILROAD

First Mortgage Bonds.

Principal and Interest Payable in Gold.

The undersigned have authority to offer for sale the Bonds of the Portland & Ogdensburg Railroad Company at the very low price of 90 with accrued interest in currency.

This road is now completed to West Baldwin, trains are running to that point, 33 miles from Portland. Beyond West Baldwin the road is graded to Fryeburg, 50 miles from Portland, and the rails will be laid to that point as early in the spring as weather will permit. From Fryeburg, the road is under contract to Conway, N. H., to which point trains will run in July 1871.

The road has thus far been built and equipped from cash subscriptions to the Capital Stock, but to complete it to Bartlett, N. H., and to provide additional equipment for its increasing business, the Company has issued bonds to the amount of $800,000, secured by a mortgage of its entire property to the following Trustees.

WOODBURY DAVIS
SAMUEL E. SPRING
WESTON F. MILLIKEN

We now offer these Bonds for sale, and confidently recommend them as a safe and profitable investment for these reasons

1. **Low Price.** At the present value of U. S. Bonds, these Bonds pay one per cent more interest in gold on the investment.

2. **Ample security.** The entire mortgage upon the road, when completed to Bartlett, will be only $12,500 per mile, a smaller encumbrance than upon any other Railroad in Maine, with a single exception, and less than the value of its rails and equipment.

3. **Large and profitable local traffic.** The business upon the line already completed more than meets the expectations of its most sanguine friends, and secures beyond a doubt the interest on its Bonds. The line is the natural outlet of some of the finest water-powers in the state, on the Presumpscot and Saco rivers, hitherto unimproved on account of the difficulty of reaching the seaboard. It taps the large interior navigation of Lake Sebago and its tributaries, over 50 miles of inland waters, drains a very large agricultural district lying on the shores of Lake Sebago, and on the banks of the Presumpscot and Saco rivers, and penetrates the heart of the White Mountains at Conway and Bartlett, the most popular summer resorts of the region.

4. **Prospective connections.** The road is to form part of a trunk line from Lake Champlain to the seaboard. Its sister Corporation in Vermont is rapidly building the Western Division of the road, from Swanton to the Connecticut river, and the entire line, when completed, will be the shortest connection between Ogdensburg, the great distributing point of the lakes, and tide-water.

We offer these Bonds for the present in denominations of $1,000 or $500, at

Ninety and Accrued Interest in Currency.

Any further information will be gladly given by the subscribers.

The Emperors from the time of Constantine contributed to the general fund, that Emperor re... ing from the Holy City, leaving the Pope as Governor The successors of St. Peter were established as temporal Sovereigns with the aid of France at time of the invasion of the Lombards more than a thousand years ago as heads of the church of the world, hence, Rome was the capitol of the world, and the church had a right to protest against its discontinuance as such. A formal protest drawn up by leading Catholics, and published in the daily papers, denouncing dishonorable means including violence, fraud, terror and murder, that were used by the Piedmontese government in dethroning the Pope during the disordered state of Europe, was read by Hugh O Brien, and unanimously adopted. Remarks were made by John C. Crowley, who called for opinion of the entire church on the sacrilegious usurpation of temporal authority granted by the christian world to the supreme Pontiffs for the maintenance of their religion. Italy and the inhabitants of the Pontifical states, he claimed had no more right to decide the status of the Pope's Dominion, than the residents of the District of Columbia had to settle theirs against the edict of the United States government.

FORTY-FIRST CONGRESS

THIRD SESSION,

WASHINGTON, Jan. 5.

Senate not in session

HOUSE

The House resumed the consideration of the resolutions reported by the Com on Foreign Affairs in reference to the dispute between Minister Washburne and the late government of Paraguay

Mr Dawes of Mass, regretted the necessity of voting on a resolution censuring Admirals Godon and Davis, but said that he could not vote No without approving their conduct and he could not in his heart say that he approved it

Mr Banks of Mass., Chairman of the Com on Foreign Affairs, said that the resolution had been drawn very mild by the Committee and did not amount to censure on any naval officer The language was that these officers had failed to discharge their duty The reason why they failed to discharge their duty was the fault of the Navy Department and it was against the policy of the Department that the Com on Foreign Affairs protested most solemnly on that point. He quoted from the testimony of Admiral Porter showing that naval officers may disregard the advice of U. S Ministers and not be governed by it unless they had instructions from the Navy Department

The discussion was continued at considerable length and was participated in by Messrs Maynard, Farnsworth, Willard, Wood, Voorhees, Eldridge and Orth

After refusing, 44 to 116, to lay the matter on the table, the House adopted, 90 to 20 Mr Farnsworth's resolution directing a court of inquiry of the trial of Admirals Godon and Davis and, 100 to 62, Mr Orth's, disapproving the conduct of Admiral Davis in delaying for an unreasonable time to proceed to release Bliss and Masterman, in accepting their release in the manner and under the circumstances related in the testimony and treating them as prisoners, by 89 to 53, that reported by the Committee declaring that Admiral Godon in neglecting to aid Mr Washburn to reach the government to which he was accredited failed to discharge his duty as commander of the South Atlantic squadron and the other majority resolutions without a division

Mr Maynard's resolution censuring Capt. Ramsey and Lieut Commander Kirkland and Mr Swann's substitute for the majority report were rejected only 14 members voting in its favor

Mr Connor of Texas asked leave to offer a resolution ordering the Secretary of the Navy to publish in general orders the resolutions censuring Admirals Godon and Davis, but Mr Hooper of Mass, objected

Mr Julian of Ind offered a resolution which was adopted, instructing the Com on Public Lands to inquire into the expediency of providing by law that every officer, soldier or sailor who served 90 days in the war for the Union and was honorably discharged shall receive 160 acres of public land as a homestead his actual term of service to act as part of the 5 years required by the home stead act of 1862

FATAL ASSAULT AND ROBBERY

ALBANY, N Y, Jan 6.

This evening just as the 8 20 Boston train started from Union depot in this city to cross Hudson river bridge, a man sprang into the American Express car and shot the Express Messenger, Thomas A Halpine, through the neck, in the right eye and in the right ear — The robber then took the key from him and opened the safe, from which he abstracted $22,9 in bills He accomplished all this while crossing the bridge, and on arriving at East Albany jumped off and made his escape The crime was not discovered until the train had stood at East Albany depot some minutes, when the wounded man crawled to the door of the car and attracted attention He was immediately taken to the City Hospital and notwithstanding his terrible wounds, was able to give an account of the robbery Mr Halpine's recovery is not considered possible — Detectives are on the alert and the early capture of the robber and murderer is hoped for

THE KINGDOM OF HOME.

Dare to the night and fitful and thrarily
Wild as the wind the wave of the sea,
Faithful and fearless I sing cheerily,
While arm akin and baby on knee,
Sing King crowned me the King!
Hear me the King lion art Love is the King!

Flashes the firelight upon the dear faces,
Do I see and dearer as onward we go,
Each as I show behind us and paces
Light as around me with warmth in the glow
Of his own crown me the King,
With his kingdom and Love's the King!

Down the night I reckoning the days,
Hurrying from bright eyes with warmth of the sun
Eager at most and content the sweet story,
Under the shadows that cover me Oh!
King King crown me the King,
Hush is the kingdom, and Love is the King!

Let the world with perishing treasures,
Served with a service no conquest could bring,
Happy with all that earth words can treasure
Let it and I in the heart-room reigning
King King crown me the King!
Hush in the Kingdom and Love is the King!
